### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

#### **IN THE SPECIFICATION:**

Page 1, line 3, after "1999" insert --now U.S Patent 6,721,446--.

#### **IN THE CLAIMS:**

Cancel claims 43-54, 57 and 60.

### ***Allowable Subject Matter***

2. The following is the examiner's statement of reasons for allowance of claims 1-30, 55 and 58: The present invention is a method, a system and a medium bearing a computer program controlling a computer for processing a digital image. Independent claims 1, 55 and 58 identify distinct feature "the estimating comprises extrapolating from colors of multiple pixels in one of the first and second regions and multiple pixels in the other of the two regions". The closest prior art to Berman et al. (US 6,134,345) shows estimating an intrinsic color of a given pixel located in an area of interest that is adjacent

to at least one of the first and second regions, however fails to anticipate or render the above limitation obvious when taken singularly or in combination.
